# NOTICE!

This is the time of year the children call "Kite Flying Time" and which is enjoyed by hundreds of children, but there is a certain amount of danger in this sport if not carried on in the proper places. It is exceedingly dangerous to fly kites where there is any chance of the kite or kite strings coming in contact with the electric wires, especially is this true if the string should be wet or a fine wire be used for a string, as these are conductors of electricity.

We therefore appeal to the parents, to see that the children are properly informed as to this danger, and the flying of kites carried on in localities where there are no electric wires. The co-operation of the public is earnestly solicited and appreciated.

# LETTER FROM MR. SPURLIN

March 28, 1932  
Mr. Editor and Readers—  
Have come again for a little chat. Would like to say something cheerful and something that would give you new courage but cannot yet. Am with Mr. O. O. Cooper in the Pine Level community but have planned to go to Mr. A. J. Hudson's in Covington County near Bell's Crossing on Lightwood Road the last of this week and go to Uncle Abh Jones' birthday reunion Sunday.

There was a big rain in this community yesterday was a week ago which damaged the land zone. The weather is cool yet but some of the farmers are planting corn and gardening. I never before saw the farmers in such a quandary. They don't seem to know what to do. Some of them can't get help to continue after preparing the land and planting some corn, and others hardly know what to plant. Cotton is worth but little and peanuts less, if possible. But perhaps it is best. Maybe it will refine people and they will be better toward their fellowman. Some times we need to be shown that others have feelings just like our own. Let's hope for something better in the near future.

I notice that prohibition of child labor is being advocated. I think this is a mistake for I have noticed that children reared in idleness a great many times make almost worthless men and women. Children that are taught to work seem to take an education more readily than those reared in idleness. This causes them to be uncontented, careless and dependent. Therefore, I believe a reasonable compulsory child law would be better than prohibition.

I have not seen by the ads, as Uncle Casper says, but by noticing that the first 12 days after Christ-mas do not govern or show how the weather will be throughout the year. If it had, this time June would have been the first month to have given us any fair weather.

I know of four birthday reunions next Sunday. Would like to be at all, but can't attend but one. Besides Uncle Abh Jones', they are Mr. Green Clark, Mr. Will Willis, near Kinston; and Mr. Dick Helms, beyond New Brockton. These men have advanced in years and I think it nice to honor these old folks in this way, and to show them any other courtesies we can, for they cannot be with us very much longer.

# "OUR TIMES" SELECTED AS NEW CLUB'S NAME—

Our Times Club met with Miss Mary Lee at the home of Mrs. T. Bryan, Tuesday, March 21. During the business meeting the chairman of committee on naming the club presented three names: "Our Times" was chosen.

The following program was led by Miss Louise Morgan:

1. The Red Badge of Courage—Mrs. J. W. Morgan.
2. Can You Express Yourself—Miss Doris Whitman.
3. "Success"—Miss Louise Morgan.
4. Miss Mollie Lee Cook of Kinston was a guest of the club. Members present included Misses Dixie, Mary and Jessie Lee, Laura Parry, Willie Blue, Hilda Swain, Doris Whitman, Louise Morgan, Mrs. T. Bryan and Mrs. J. W. Kendrick.
5. A delightful salad course with hot tea was served.

When the treaties with the Choctaws in 1802 and 1803 threw open rich lands for settlement in what is now Alabama, new routes of travel were opened; and by 1808 thousands had flocked from Georgia, Tennessee, the Carolinas, and other states. Many of our leading citizens have had of them their pioneer ancestry.

It is claimed that Al Smith walking in the inaugural parade as a Tammany sachem came pretty close to "stealing the show" while we minis us that we were in Berlin as a student when Emperor Wilhelm had to leave the parade as he was attracting more attention than the Kaiser to be crowned. He took to a back street. We recall our disappointment in missing the Iron Chancellor.

The enduring strength of America is the home. The tragedy of the nation is coming from the loss of so many homes by the people who are taxed to the point where they cannot continue as home owners. There is a real danger in making it hard for men and women to keep the roof over their heads.

Louis Helms, chairman; Grover Grooms, vice-chairman; Dave Johnson and Henry Damake, arranging committee; Mildred Grooms, secretary.

It is considered a wise plan in dairy cattle management to give the cow a rest period of six or eight weeks before freshening. Some cows may be persistent milkers and may be irritable with difficulty but this rest period should be provided.
